PORTFOLIO

<https://horleng.vercel.app>

GITHUB

<https://github.com/horlengg>

CORE SKILLS

- Swift, SwiftUI (primary), UIKit
- Combine, Async/Await Concurrency
- MVVM & Clean Architecture
- RESTful APIs, URLSession, Codable, SwiftData / CoreData
- Push Notifications (APNs, FCM), Firebase
- Biometric Auth, Keychain, App Security
- Deep Links, Universal Links
- iOS SDK Integration
- SwiftUI Profiling, Xcode Instruments, Memory Leak Detection
- Dependency Injection, Unit Testing (XCTest)
- Xcode, Git, Swift Package Manager (SPM)

LANGUAGES

Khmer

English

Ly Houleng

SENIOR IOS DEVELOPER

Software Developer with 3+ years of experience building secure iOS and cross-platform apps with Swift, SwiftUI, and Flutter. Skilled in mobile architecture, API integration, and performance optimization, with a focus on banking apps.

EXPERIENCE

- **June 2026 — Present**
Chip Mong Commercial Bank
Senior iOS Developer
Build and maintain secure, high-performance iOS banking apps in SwiftUI. Ship new features, optimize performance, and improve API integrations.
- **Jan 2025 — June 2026**
Asia Pacific Development Bank
Mobile Developer
Maintained the bank's Flutter app for iOS and Android, adding features and optimizing API integrations with backend teams.
- **June 2023 — Dec 2024**
Asia Pacific Development Bank
Web Developer
Built secure banking web apps with Vue 3, TypeScript, and RESTful APIs. Contributed to Electron desktop apps and to React, Express.js, and NestJS projects.

EDUCATION

- **2022 — 2025**
Royal University of Phnom Penh
Bachelor of Computer Science

PROJECTS

- **Liveness Detection App (Personal)**
Built a real-time computer vision app to verify human presence and prevent spoofing during biometric authentication using both passive and active detection.
Source Code : github.com/horlengg/liveness_detection
- **QR & Barcode Scanner with Animation (Personal)**
Developed a fast QR and barcode scanner with real-time camera decoding, interactive scan animations, and auto-zoom to boost detection accuracy.
Source Code : https://github.com/horlengg/barcode_scanner_animation
- **EDC Integration for Bill Payment (Asia Pacific Development Bank)**
Developed and implemented a new electricity bill payment service for the APD mobile app.
- **POC Pay Sound (Chip Mong Commercial Bank)**
Developed an alert sound feature to notify users when a new transaction is received.
Blog : <https://horleng.vercel.app/blogs/implement-transaction-voice-alert-ios>
- **Feature Flag (Chip Mong Commercial Bank)**
Implemented feature flags in the banking app to turn features on or off remotely without a new release.
